LinkedIn | GitHub | Portfolio

Software engineering student developing desktop and full-stack applications, with hands-on client website support and robotics experience. Seeking a software engineering internship for May 2027.

TECHNICAL SKILLS

Programming Languages: TypeScript, JavaScript, Java, C#, C++, Python, Rust

Frontend & Desktop: React, Next.js, Tauri, HTML/CSS

Backend & Data: Node.js, REST APIs, PostgreSQL, SQL, Firebase, Supabase, OpenAI API integration

Tools & Systems: Git, GitHub, Docker, Vercel, Netlify, Figma, Linux; networking fundamentals

Spoken Languages: Spanish (native), English (fluent), Japanese (beginner; studying)

PROJECTS

Tomoji — Desktop Companion Application | Tauri, React, Rust | 2026 - NOW

- Built a desktop app with customizable animated companions, editable dialogue, behavior settings, and a visual character editor.
- Developed character-pack import/export workflows, including compatibility with Shimeji sprite packs.

Table Metrics — Full-Stack Financial Application | 2026

- Designed and developed a financial management application using React, Tailwind CSS, and Firebase to track income, expenses, and assets.
- Implemented user authentication, real-time data synchronization, and interactive financial dashboards.
- Created Figma UI prototypes, flowcharts, and technical documentation to guide implementation.

Playlistly & Playlix — API-Based Applications | 2026

- Built two web applications using Next.js, React, and TypeScript, integrating YouTube and Spotify APIs to organize playlists on interactive visual canvases.
- Implemented OAuth authentication, paginated data loading, drag-and-drop organization, and browser-based layout saving with JSON import/export.

PROFESSIONAL EXPERIENCE

Freelance Website Support | [CECyTE Sinaloa] | 2026

- Provided paid website updates through a site builder; advised on an editing approach staff could maintain independently.

EDUCATION & ACTIVITIES

Universidad Politécnica de Sinaloa (UPSIN) | 2028

Bachelor of Engineering in Information Technology and Digital Innovation

GPA: [4.0, 9.73/10] | Relevant coursework: Data Structures, Databases, Object-Oriented Programming

Preparatoria Tecmilenio | High School Diploma | 2025

FIRST Tech Challenge Robotics — [Builder // 2026] | School Volleyball Team
